Dutta, Mohan J. (2008). Communicating Health: A Culture ...

The goal of the culture-centered approach is to offer an alternative entry point for theorizing and

practicing health communication by highlighting the absences and/or silences in current health communication theory and practice, and by presenting voices of the marginalized sectors through engagement in dialogue (Airhihenbuwa, 1995; Dutta-Bergman, 2004a, 2004b, 2005).

Communicating About Culture and Health: Theorizing Culture ...

A culture-centered approach to health communication makes the argument that when you think about the basic health challenges in the world today, you need to think about them in terms of structural inequities and conditions that constitute those health experiences.

Culture-centered approach for community-driven health ...

Whereas the culture-centered approach is based upon the commitment to building theories and applications from within the culture, the cultural sensitivity approach pushes the agenda of the status quo and seeks to adapt the messages to the cultural markers of the target audience.
