Chapter 16 review physical science answers

The "naturalist" program in science studies suggests that normative questions in the philosophy of science can be reduced to historical and sociological investigations of the actual practice of science. In this spirit, Laudan has defended the project of testing philosophical models of scientific change by the history of science: such models, which are "often couched in normative language ...

Science vs. Non-Science. We live in an interesting time in which the certitudes and authority of science are frequently challenged. In the natural sciences, people doubt scientific claims about climate change and the safety of vaccines. In the social sciences, people doubt scientific claims about the declining rate of violent crime or the effectiveness of needle exchange programs. Sometimes ...
