14. Dictation. One of my very favorite teaching activities is Dictation! It is highly effective in engaging students because it is multisensory explicit phonics instruction—involving: auditory, visual, kinesthetic, and tactile senses. Having a multisensory approach increases working memory and integrates all language skills/modalities.

Vygotsky has developed a sociocultural approach to cognitive development. He developed his theories at around the same time as Jean Piaget was starting to develop his ideas (1920's and 30's), but he died at the age of 38, and so his theories are incomplete - although some of his writings are still being translated from Russian.
