Oracle 11g Starting from Oracle database 11g. iSqlplus (web based) and sqlplus GUI no longer ship with Oracle database software. [7] The command-line SQL Plus interface continues in use, mostly [citation needed] for non-interactive scripting or for administrative purposes.

SQL Plus - Wikipedia

Oracle Database Express Edition 2 Day + .NET Developer's Guide for Microsoft Windows serves as a quick start guide, which describes Oracle technologies for the Microsoft .NET Framework, including the key features of Oracle Data Provider for .NET and Oracle Developer Tools for Visual Studio.

Database Express Edition Installation Guide - Oracle

In the default profile in Oracle Database 11 g or later, the parameter PASSWORD_LIFE_TIME is set to 180. If you are using Oracle Database 11 g or later with Oracle Application Express, this causes the password for APEX_PUBLIC_USER to expire in 180 days. As a result, your Oracle Application Express instance will become unusable until you change ...

Installation Guide - Oracle Help Center

sqlplus /nolog @C:\temp.sql The resulting batch file can be run manually, by double-clicking on it, or scheduled using the Scheduled Tasks Wizard (Start > Programs > Accessories > System Tools > Scheduled Tasks) or the AT scheduler.

ORACLE-BASE - Oracle Shell Scripting

Also, there needs to be a user group that the "oracle" user belongs to. This user group is usually named "dba". The operating system users who belong to the "dba" group can connect to the database with "SYSDBA" privileges. So, you need to ask the system administrator to logon to a server as an "oracle" user or any user who ...
